

# Kiribati Healthy Families Project: Phase Two

The Kiribati Healthy Families Project was initiated in 2012 to improve the sexual and reproductive health and rights (SRHR) of I-Kiribati. Following the success of the project, it has now entered a second phase and will run until 2020.

## QUICK FACTS

**Goal:** To increase access to sexual and reproductive health information, skills and services, resulting in a reduction in sexually transmissible infections and unplanned pregnancies.

**Duration:** 2015 - 2020

### Partners:

- New Zealand Aid Programme
- Kiribati Family Health Association (KFHA)
- Family Planning New Zealand

### Location:

- South Tarawa
- Abaiang
- Abemama
- Aranuka
- Butaritari
- Marakei
- North Tarawa

## PROJECT DETAILS

The Healthy Families Project offers an integrated approach to improving SRHR by:

### 1. Developing SRHR capacity

- Clinical training and mentoring for nurses
- Leadership programmes for health educators
- Strategic planning for outer island representatives

### 2. Improving access to SRHR information, skills and services

- Mobile and after-hours clinics
- Workshops with schools and key groups
- Health promotion campaigns
- Information, education and communication (IEC) materials

### 3. Creating an enabling environment for SRHR

- Advocacy workshops with community leaders
- Research projects to inform advocacy work and project activities
